By investing in multiple holiday homes, you get more value for your money, less stress by completely handing over management, and above all, more freedom than fully owning just one holiday home. You become a co-owner of at least three beautiful houses, which yields significant cost savings compared to fully owning just one house. Our goal is to make Summit Living accessible to everyone and thus beautify the world, as everyone should live according to their own Summit Living.

Summit Living selects forward-thinking locations and acquires beautiful properties in special places. We strive to make each home comfortable and functional, equipped with all conveniences. Summit Living renovates and manages all properties with an eye for detail, aesthetics, and respect for history and the environment, ensuring a carefree stay for you as an owner. ## WHO ARE WE?

Meet Ramon and Liset, and Mark and Nicole, the passionate entrepreneurs behind Summit Living.

Ramon and Liset form a dynamic duo with vibrant energy, ensuring a streamlined organization. Mark and Nicole bring their endless creativity and hospitality to enrich Summit Living. A perfect blend of competencies to guide you towards your Summit Living.

The children in our two families are the heart of our team. Sharing precious moments with our loved ones is what Summit Living is truly about. As entrepreneurs, we always strive for the highest possible achievements, but never at the expense of what is most important to us: time to enjoy precious life together.

Over the years, we have learned that true growth comes from sharing with others.

We also realize that you need to maximize life, but also your assets. Because every moment a beautiful holiday home stands empty is a moment it's not enjoyed, which is extremely wasteful.

Our goal is to make Summit Living accessible to everyone. We want to make owning a holiday home as pleasurable and effortless as possible. We aim to beautify the world we live in and pass on to our children by preventing emptiness and decay in the world's most beautiful places. That's why we believe in sharing real estate so that your assets are used optimally.

At Summit Living, we are ready to guide you on your Summit Living journey. Together, we will make your dreams a reality!

We warmly welcome you to Summit Living! Let's embrace the peak of life together!

## WHY SHARE?

For many, the idea of a holiday home abroad conjures up images of high investments and many time-consuming and unclear obligations.

The sharing economy in which we live shows that it is not logical to own 100% of an asset while only using it 10% of the time. Why own just one holiday home when you can have a share in at least three for less money?

Summit Living offers better affordability, less hassle, and more freedom than owning just one holiday home.

An important aspect of sharing a holiday home is sustainability. By sharing a holiday home with 14 others, optimal use is made of the house, preventing the construction or renovation of 14 other holiday homes that would all be empty 90% of the time. With Summit Living, we handle property development sustainably. We breathe new life into existing properties and then utilize their full potential

### Added Value for Your Investment

Save significantly on costs compared to purchasing a comparable holiday home. By investing in Summit Living, you become a co-owner of at least three properties with a total value that is higher than if you were to buy just one property. In short, it's cheaper to assemble your home portfolio with Summit Living than owning a single holiday home in one location.

### Diverse Destinations

You are not limited to one location or holiday home. As an owner of at least three houses, you have access to your own holiday homes in which you hold a share, at times of your choosing.

### Full Ownership, No Risk.

Each property is fully purchased, eliminating the need for a mortgage. This ensures a secure situation for all involved homeowners.

### Modularly Structured

Choose only the locations that truly fit within your Summit Living. You determine your own portfolio, with a minimum of three houses. Summit Living continues to grow in various locations, making it possible to adjust your portfolio in the future. You can endlessly expand and reduce your portfolio because we understand better than anyone that your Summit Living is not static but evolves with your life.

### Single Holiday Home

## WHY HAVE IT MANAGED?

Properly managing and maintaining a holiday home requires a lot of time, money, and focus. By entrusting the management to us, you can be assured that your homes are managed according to the highest hotel standards. The beds are made, fresh towels are ready, the garden is perfectly maintained, and the pool is cleaned. Additionally, your fee also covers minor renovations, ensuring all our homes remain in optimal condition. We also handle all the administrative and legal matters associated with owning property abroad.

All you need to do is let us know when you want to be there, and we'll handle the rest.

### Useful app

Summit Living has developed a fantastic app that provides everything you as a homeowner need.

### Simple booking

Part of the app is an ingenious booking system that benefits both long-term and short-term planners, allowing everyone to secure their desired periods.

### Beautifully furnished homes

All properties are tastefully decorated by experts. Together with our partners, we ensure that each Summit Living house is comfortably and attractively furnished, with respect for local materials and customs. We do not simply purchase properties; we create perfect holiday homes. We look for properties with a lot of potential and renovate them according to our high standards, in line with our Summit Living philosophy.

### Buying abroad without risk

Buying property abroad can be risky and time-consuming, from the purchase to renovation and maintenance. Let us, as experts, handle everything!

Thanks to our strong local networks, we select properties in the best locations from your most beautiful dreams that also represent a solid investment.

### One fixed monthly fee

And with that, we handle everything. From maintaining your properties to ensuring consistent quality standards and managing and paying local taxes, we take care of it all.

# YOUR SUMMIT LIVING APP

Your Summit Living is important, and we understand that. That's why we developed the Summit Living app, with you in mind. It's a user-friendly app where you can find everything about your vacation homes.

Through this app, you can book your vacations, view annual reports and maintenance history, and book all the extra services you need.

## Your Stay

All your future planned stays are listed, summarized with all the information you need and the services you have booked. Are you coming yourself? Let Summit Living set up your personal box. If someone else is staying under your name, leave your box behind. Manage it easily from wherever you are.

## Your Summit Living

Here, for each vacation home, you can find all the detailed information needed for a practical and safe stay, as well as all the insights you as a homeowner need to live your Summit Living worry-free. From technical information like

addresses, directions, and alarm codes, to nearby hospitals and administrative and financial information such as annual reports, maintenance history, and agreements made about the respective property.

## Booking

Your vacation homes are inseparably linked to your Summit Living, and naturally to others' as well. How do you plan your vacations and secure your desired periods? With our smart and user-friendly planning system, you can plan ahead or wait for spontaneous trips, enjoying your vacation homes flexibly regardless of the season.

Different families have different needs. Therefore, we have carefully compiled a Summit Living portfolio with an excellent balance of fourteen different families per vacation home and at least three homes per family, ensuring plenty of flexibility.

Our booking system operates on a points basis, where each member of the collection receives the same amount of points annually. These points can be used to book weeks in four categories based on seasons. With your points, you can typically secure 10 weeks, depending on your needs. If you mostly stay during the off-season, your points are worth more and can increase to up to 18 weeks.

To accommodate planners for both long and short terms, points are released in batches throughout the year. This ensures you have a fair chance to book your desired weeks and

high season weeks, and you can plan different vacations at various times each year.

## Sharing

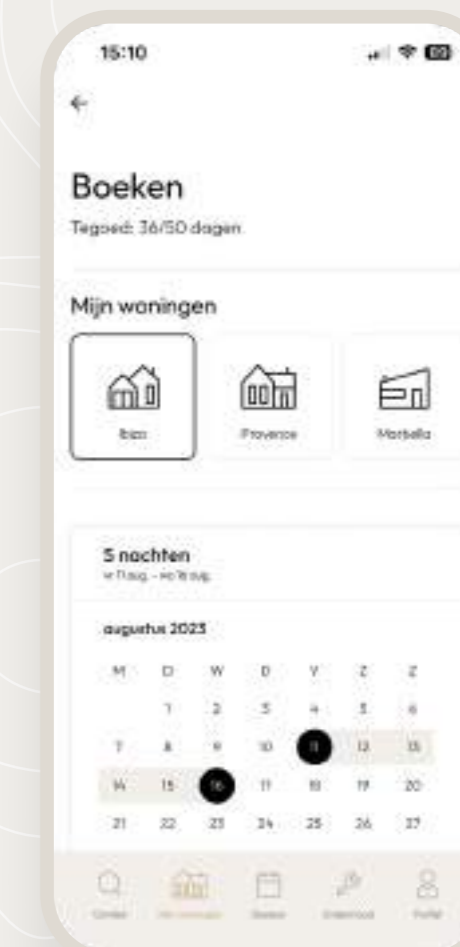

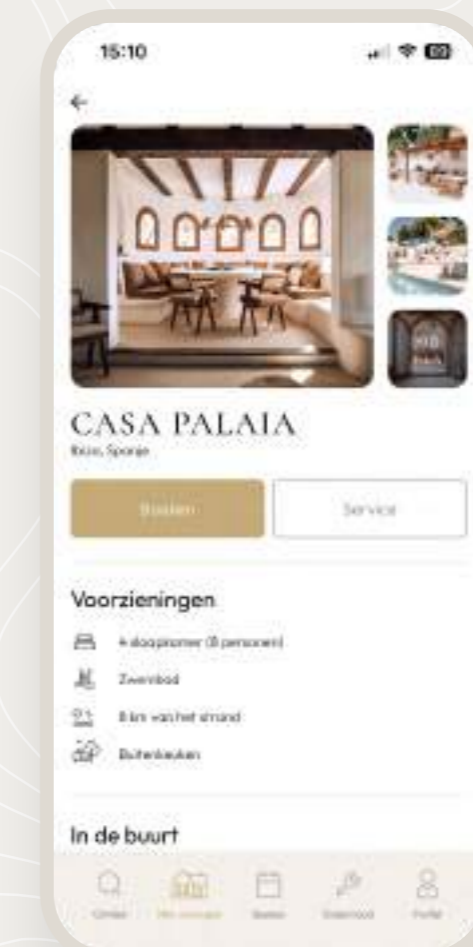

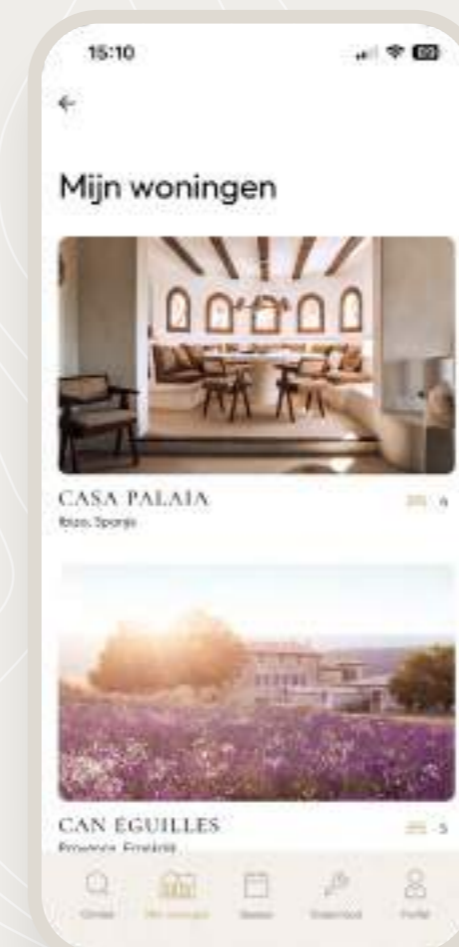

"Sharing ownership, multiplying memories - that's the magic of Summit Living." And that doesn't stop with the co-ownership of the real estate. That's where it begins. Share your experiences about the surroundings, the weather, the special spots in the garden, and your favorite wine from the neighbor. Perhaps you'll inspire someone else and contribute to another's Summit Living.

## Service

Summit Living always offers top service, some always included, others optional. Think of a stocked fridge, airport pickup, or nanny service. Additionally, each property also has its own extra services, such as a private chef, a boat in the harbor, wine tastings, and more. You can easily book all the extra services you need via the app.

## Maintenance

Where there's life, there's need for maintenance. In this section of the app, you can easily report a problem by uploading photos, videos, or text. Through the app, we keep you updated on the developments around the reported issue. The history of all maintenance can be found here.

# RENTING - VS - SUMMIT LIVING

When renting a vacation home, the costs are high and there is no return on investment. In contrast, when purchasing a vacation home, you invest your money in real estate. As an owner, you retain the property's value and even benefit from the natural appreciation of the property. In a future sale, you can achieve a return on your investment, likely recovering the entire amount. In this way, you not only utilize your money but also invest it in a valuable asset.

## Example

The cost of renting comparable properties, located in the most sought-after locations, averages 500 euros per night, depending on the week you book. For a rental of 4 weeks, that's 14,000 euros. With Summit Living, the actual costs for the use of your vacation homes are 9,000 euros per year. This amount includes all costs for management, maintenance, taxes, repairs, and depreciation. In this example of a 4-week vacation, you save 5,000 euros per year, which is a savings of 36% compared to renting.

On average, with Summit Living, you save 50 to 75% annually compared to the costs of renting a vacation home.

## THE INVESTMENT

Buying a house requires an investment. The investment varies per property, as the value of each property differs. Additionally, the total investment varies per portfolio, as the number of properties in a portfolio can differ.

Investing in a house is often a stable investment that increases in value over the years. Summit Living only purchases real estate in areas with a proven track record of rising property values.

### Two Phases

We release the shares in two phases. The first 8 shares are released at a lower amount than the last 7. Once we have issued the first 8 shares, we begin the project. Phase 1 is cheaper because these owners join at an early stage, and do not know how long it will take before a project is completed.

## SUMMIT ONE

Phase 2 / Price: € 295.000
